Built-in solar generator luggage will be born!

*1 An in-company investigation

By accumulating to a storage battery, no more worries for running out of mobile phone batteries !

From LEGEND WALKER PREMIUM of T&S Co., Ltd., a new model luggage which has a built-in solar generating sheet will be released on November 2015 for the first in the world. The solar generating sheet in the front pocket is removable, and the luggage has primary functions as well. Since the electric energy can be accumulated in the mobile storage battery, no worries even if your mobile phone ran out of the battery while traveling.
